INTRODUCTION

On-the-Job Training (OJT) serves as a vital bridge that prepares students for their future careers by immersing them in real-world work environments. It ensures that learning extends beyond the four walls of the classroom, allowing students to apply their knowledge and contribute meaningfully to their respective host companies.

Internship, however, offers more than just technical know-how in performing designated tasks. It also provides invaluable opportunities to connect with colleagues, build professional networks, and establish relationships that can yield positive impacts in the future. Beyond professional connections, it allows one to forge genuine friendships—friends who can offer encouragement and insight, and who may very well become future colleagues. The internship agency itself could even become a potential workplace after graduation.

Beyond the skills and connections, this journey has also been a profound exercise in self-discovery. I learned to navigate unfamiliar situations, adapt to workplace culture, and embrace challenges with resilience. There were moments of doubt and exhaustion, but each hurdle taught me the value of patience, perseverance, and humility. I discovered strengths I did not know I had and recognized areas where I still need to grow. This experience has not only shaped me as a future professional but also as a person—more confident, more responsible, and more appreciative of the opportunities given to me.

This internship journey has been incredibly insightful and meaningful. I have not only gained a deeper understanding of how the industry operates, but I have also met friends who have shared valuable lessons on what to expect as I approach the end of my college journey. They have taught me important considerations when job hunting, practical technicalities of the profession, and the significance of building connections that can open doors to future opportunities.

Truly, this experience has been a transformative chapter in my growth—both professionally and personally.

Dear Hiring Manager,

Good day!

I am writing to express my interest in applying for an internship position at AECC Global, specifically for your Davao City branch. I am currently a Bachelor of Science in Computer Science student at North Eastern Mindanao State University and will soon be undertaking my On-the-Job Training.

My primary strengths lie in graphic design and video editing, with a strong passion for creating visually compelling content. I have hands-on experience working with international clients, producing engaging short-form videos for platforms such as TikTok and Instagram Reels using tools like CapCut and various AI-based applications. My work focuses not only on editing but also on visual storytelling, brand consistency, and audience engagement.

In addition to client work, I serve as the Multimedia Officer for our college's Association of Computer Science Students at NEMSU Tandag. In this role, I am responsible for creating promotional materials, event coverage content, and social media visuals. You may view some of my works through the official page of NEMSU Tandag - Association of Computer Science Students.

I have also worked online as a Video Editor and a Virtual Assistant, which has equipped me with strong organizational, communication, and time management skills. These experiences taught me how to handle multiple tasks efficiently, coordinate with clients remotely, and deliver quality outputs within strict deadlines.

Furthermore, I have worked as a Same Day Edit (SDE) video editor for major academic and institutional events, including the International Conference on Methodological Advances in Research (ICMAR) and PAGPADAYAO 2025 and 2026 (State of the School Address). These experiences sharpened my ability to perform under pressure, meet tight deadlines, and deliver high-quality outputs in fast-paced environments.

Beyond video editing, I am deeply interested in graphic design and eager to further develop my skills in content strategy, branding, and digital campaign execution within a professional and collaborative environment like AECC Global.

I am highly adaptable, detail-oriented, and passionate about producing meaningful and impactful content. I am confident that I can contribute positively to your team while gaining valuable industry experience.

Attached herewith are my CV and portfolio for your review. I would greatly appreciate the opportunity to be considered for an internship position and am available for an interview at your convenience.

June 15, 2026	Day 1	Morning 8:00 AM – 12:00 PM Afternoon 1:00 PM – 4:30 PM	I successfully completed the company orientation, where I learned about aecc global's history, policies, and workplace expectations. June 16, 2026	Day 2	Morning 8:00 AM – 12:00 PM Afternoon 1:00 PM – 4:30 PM	I contributed to the virtual Town Hall meeting by editing the slideshow and helping prepare the icebreaker activity, ensuring the presentation was polished and the session started off with strong engagement. AFTER COMPLETION OF THE TRAINING

A. REFLECTION

My internship with the Marketing Team has been one of the most defining and transformative chapters of my life. It was more than just a requirement to fulfill or a line to add on my resume—it was a journey of growth, self-discovery, and genuine passion for the work that I do. From the very first day, I was welcomed into a dynamic and fast-paced environment where every task mattered and every contribution was valued. I quickly learned that marketing is not just about promoting a product or an event; it is about telling a story, creating connections, and inspiring people to take action.

One of the most significant experiences I had was working on the Global Education Fair, a project that challenged me in ways I never expected. I was entrusted with responsibilities that went far beyond the typical intern tasks. I took on the role of director and camera operator for our social media content, where I was able to bring my creative vision to life. Filming at locations like SEDA Abreeza Hotel, People's Park, and Felcris Centrale, I made sure every angle, every lighting choice, and every composition told a compelling story. This was my niche, my strongest skill, and being able to apply it in a real-world setting was incredibly fulfilling. I poured my heart into every shot, knowing that the content we were creating would reach and inspire students who were dreaming of studying abroad.

Beyond the creative work, I also handled lead management and client communication. I called prospective students, confirmed their attendance, and updated their profiles with care and professionalism. At first, these calls were intimidating, but over time, I grew more confident and comfortable in my interactions. I learned to listen actively, to empathize with the concerns of others, and to communicate with clarity and purpose. Each conversation reminded me that behind every lead is a real person with dreams, questions, and hopes for their future. Being part of their journey, even in a small way, was deeply meaningful.

There were days when I balanced multiple responsibilities at once—editing videos in the morning, shooting new content in the afternoon, and squeezing in lead calls whenever I had a free moment. It was exhausting at times, but it was also exhilarating. I thrived in the chaos because I knew that every task I completed brought us one step closer to our goal. I learned to manage my time wisely, to stay organized under pressure, and to adapt quickly when plans changed. Most importantly, I learned the value of collaboration and teamwork. My coworkers and supervisors were always supportive, offering guidance and encouragement when I needed it most. Their trust in me gave me the confidence to push beyond my limits and deliver work that I could truly be proud of.

One of the most rewarding moments came when I received positive feedback from our Marketing Team and coworkers. Hearing that my work was appreciated and that it made a difference validated all the effort I had put in. It reminded me that hard work does not go unnoticed and that when you give your best, people will see it. Those words of encouragement fueled my motivation even more and made me realize that I am capable of so much more than I initially believed.

Looking back, this internship has given me more than just skills and experience. It has given me a deeper understanding of who I am and what I want to pursue in my career. It has shown me that I thrive in environments where creativity meets purpose, where I can combine my technical abilities with my passion for connecting with people. It has taught me to embrace challenges, to step out of my comfort zone, and to believe in my own potential.

I am incredibly grateful to everyone who made this experience possible—my supervisors, my mentors, and my fellow interns who became friends along the way. They challenged me, supported me, and inspired me to be better every single day. As I move forward, I carry with me not only the technical knowledge and professional skills I have gained, but also the confidence and determination to continue growing, learning, and pursuing excellence in everything I do.

This internship was not just an ending; it was a beginning. It opened my eyes to the endless possibilities that lie ahead and ignited a fire within me to keep pushing forward. I am excited for what the future holds, and I know that the lessons I have learned here will guide me for years to come. To anyone who is about to embark on their own internship journey, I say this: give it your all, embrace every opportunity, and never underestimate the power of your own potential. The experience will shape you in ways you never imagined, and you will come out stronger, wiser, and more inspired than ever before.Indeed, my last day at the internship was a bittersweet goodbye. Upon reflecting, I believe that it is a testament of how fun and insightful my OJT journey was. I have learned not just the technicalities within the job that I was working on, and also I’ve learned to connect to people from all walks of life.
